

PRESS RELEASE

PYLOTE PRESENTS PYCLEAR™ PROTECTION & PYCLEAR™ DURATION, TWO MAJOR PROPRIETARY INNOVATIONS AT CPhI BARCELONA 2016 (stand n°2 M 11)

Toulouse (France) - September 27, 2016 – Pylote, the new player in the green mineral chemical sector, will exhibit at CPhI from October 4th to 6th in Barcelona (stand n° 2M11) with two of its major proprietary innovations, PYCLEAR™ PROTECTION & PYCLEAR™ DURATION.

This new commercial step in the sales & marketing development of Pylote comes after having successfully raised €2 million of capital to fund its development last January. This follows its successful participation at Pharmapack 2016 last February where Pylote collected Pharmapack Award 2016 in the Best Exhibitor Innovation category for « Patient Protection & Cost-Efficiency. Pylote was also present for the first time in the USA at Interpex 2016 in New York & at Argo 2016 in Seattle.

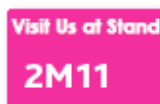

Today, Pylote, with its exclusive manufacturing process, has more than 200 partnerships with industry worldwide and more than 50 to provide CE marking & AMM products.

PYCLEAR™ PROTECTION is a breakthrough innovation that replaces antimicrobial preservatives used in many pharmaceutical and cosmetic specialties for which no change is needed in packaging nor in existing manufacturing processes. PYCLEAR™ PROTECTION provides an ideal “eco-friendly” answer to the regulatory authorities’ requirements which are looking to remove the use of preservatives. Developed in full compliance with regulations (Ph. Eur., FDA...), this solution is highly suited for multi-dose eye drop flasks, nasal spray used preparations, and also for skin care cosmetic products

PYCLEAR™ DURATION is a complete technological innovation that extends utilization benefits and prolongs product’s effects. The added values of this technology are numerous. For the consumer it extends time-life effect, reduces replacement frequency and corresponding installation work. It also reduces replacement frequency and thus material and transport requirements. In term of medical applications, PYCLEAR™ DURATION permits the drug delivery release control. Among various applications, this innovation is suited for pills, implants & patches and biological medicines.

ABOUT PYLOTE’s PRESENCE at CPhI

 **CPhI Worldwide 2016** (Fira de Barcelona, Gran Via, Barcelona, Spain – October 4 to 6) - **STAND #2M11** - Pylote has been invited to hold a conference on Wednesday October 5 at 12 pm where Loïc Marchin, CEO of Pylote, will present its green innovation PYCLEAR™ PROTECTION to protect patient from adverse effects of preservatives and microbial contamination.

ABOUT PYLOTE - Founded in 2009, Pylote is committed to green industrial chemistry in the mineral and ceramic chemical sector. Through the range of its efficient PYCLEAR™ solutions, Pylote conceives and develops innovative mineral microspheres to sell solutions which can be integrated into numerous consumer products. Pylote’s solutions have a major competitive advantage as they make the end products smarter, by giving new and specific advantages and attributes to materials, with no change to the existing manufacturing process. Pylote helps their clients, who are present in pharmaceutical, cosmetic, luxury, food or industrial markets, to propose end consumers with more eco-friendly products that are greener, cleaner and safer.
